

**As a parent, keeping your kids out of harm's way is a top priority.
Take the next step toward safety and security - with the McGruff
Safe Kids Total ID System.**

Solely for your benefit, this program gathers critical identifying information about your child, such as an up-to-date digital photo, 10 digital fingerprints and more. The McGruff Safe Kids Total ID System is an effective, inexpensive way to create a totally secure, kid-friendly record, complete with photo ID cards and fingerprints. Your family's protection increases beginning the day your child attends the McGruff Safe Kids event. You as the parent are the only holder of the record.

Key Points: No smiling is allowed in photo, unless smile does not change features _ photo could be used for age progression. Digital fingerprints can be used for forensic purposes. You as the parent are the only holder of this record. Keep the large card at home in a safe place and the ID cards in your purse/wallet for handy reference.

This is the ONLY Digital ID system that is licensed by the National Crime Prevention Council and endorsed by Code Amber. In the unfortunate event that your child is lost, you as the parent give the ID or the large card to the investigating law enforcement official.

Here is the link that explains the ID package and what it contains:

<http://phoenix.mcgruff-tid.com>. The package is \$20.00 per child and it includes a self collection DNA Kit for you, the parents to obtain at home, 2 wallet size ID cards that you, the parents keep in your purse or wallet for handy reference and an ID Data Card that is 7" x 8 1/2" with their digital photo, 10 digital fingerprints and vital personal information.

When I attend the Wings To Fly event on Saturday, April 21st, I will bring a stack of the parent letters. It contains the same information that is on the web site but it is also the form that you, the parent actually fills out to have your child(ren) processed. I will also bring a sample size of the package so that you can see it firsthand.

A single check for all children in one (1) family is fine. If you have other children or know of someone who would like to be processed, feel free to bring them along. All are welcomed and there is no age requirement - infants through adults can be processed.

If you would like an additional set containing one (1) data card + two (2) wallet size ID cards for a separate household, grandparents or anyone else that your child may spend time with, these can be purchased for an additional fee of only \$6.00 per child.

If you want to register online before 4/20 you may do so at:

www.ezform.mcgruff-safe-kids.com. You can pay with a debit or credit card and the information will download into my software the night before the event. Therefore, you do not need to fill out a form if you register online. You can even pay the day of the event with a debit or credit card and I can email you a receipt when I process it. You can also pay with a check or cash (checks made payable to McGruff). There is a \$20.00 fee on returned checks.

Feel free to call me with any questions you may have.

Thank you, Marie
